

# ChronoZoom®

A free timeline tool for teachers and students

ChronoZoom makes it easy to explore the vastness of time at all scales, bringing history to life. Quickly zoom from a single day to a timeline that covers hundreds, thousands, or even billions of years.

With ChronoZoom, you can ...

- Browse through the history of life, humanity and the universe using a unique visual interface
- Build your own timeline at any scale: Cosmos, Earth, Life and Humanity
- Create custom tours to guide viewers through timelines, sharing stories and insights
- Plot and compare chart data, bringing data visualization alongside historical narratives

## Balkan Wars (1912 CE)

### So, What's the Problem?

There were two wars in the Balkans, fought in 1912 and 1913. The first one was between the Balkan states and the Ottoman Empire. The second was between the Balkan states themselves as they fought over the spoils of the first war.
